Country: Belgium

Email: stephanie.van.de.voorde@vub.be

CV: Stephanie Van de Voorde (1981) graduated in 2005 as a civil engineer-architect at Ghent University (Belgium). In 2011, she finished her PhD on 'Building in Concrete in Belgium (1890-1975)'. Stephanie is currently appointed as research professor and post-doctoral researcher at the department of Architectural Engineering of the VUB, Brussels. During the last decade, she has been involved in several research projects related to 19th- and 20th-century construction history and architectural heritage, for instance on architectural precast concrete, the history of architectural education in Belgium, post-war construction materials and building techniques,

7ICCH

Seventh International Congress on Construction History

various building actors, building regulations, collective housing projects in France in 1950-2000, architects' houses in Brussels, contractors in Brussels in the 19th and 20th century etc. Stephanie is a member of the Construction History Society, Docomomo, Icomos and the Association Francophone de l'Histoire de la Construction. She is a member of the editorial board of the bimonthly journal *M&L. Monumenten, Landschappen en Archeologie* and an Expert Member of the ICOMOS International Scientific Committee 20th Century (ISC20C). She was co-organisator of the 6th International Conference on Construction History (Brussels, 2018).
