

7ICCH

Seventh International Congress on Construction History

Name: Fabbri
First name: Marco
Function: Professor
Affiliation: Università di Roma Tor Vergata
Country: Italy

CV: Marco Fabbri was born in Perugia in 1959. He is Associate Professor at the Tor Vergata University of Rome, where he is responsible for the following chairs/ lecture units: “Ancient Rome and Ancient Italy Topography” and “Methodology for Archaeological Research and Technics”. During his long research career focused on multi-stratified urban and architectural sites, he has directed many excavation campaigns and field survey missions in different locations in Italy: Tuscany (Cortona), Daunia (Auscultum, Luceria, Sipontum, Vieste), Basilicata (Rivello), Calabria (Taureana), Lazio (Gabii) and in Campania (Pompeii).

7ICCH

Seventh International Congress on Construction History

Parallel to his research and academic activities, Marco Fabbri has worked as a consultant on projects to manage and enhance archaeological contexts, coordinating multidisciplinary teams of researchers and professionals.

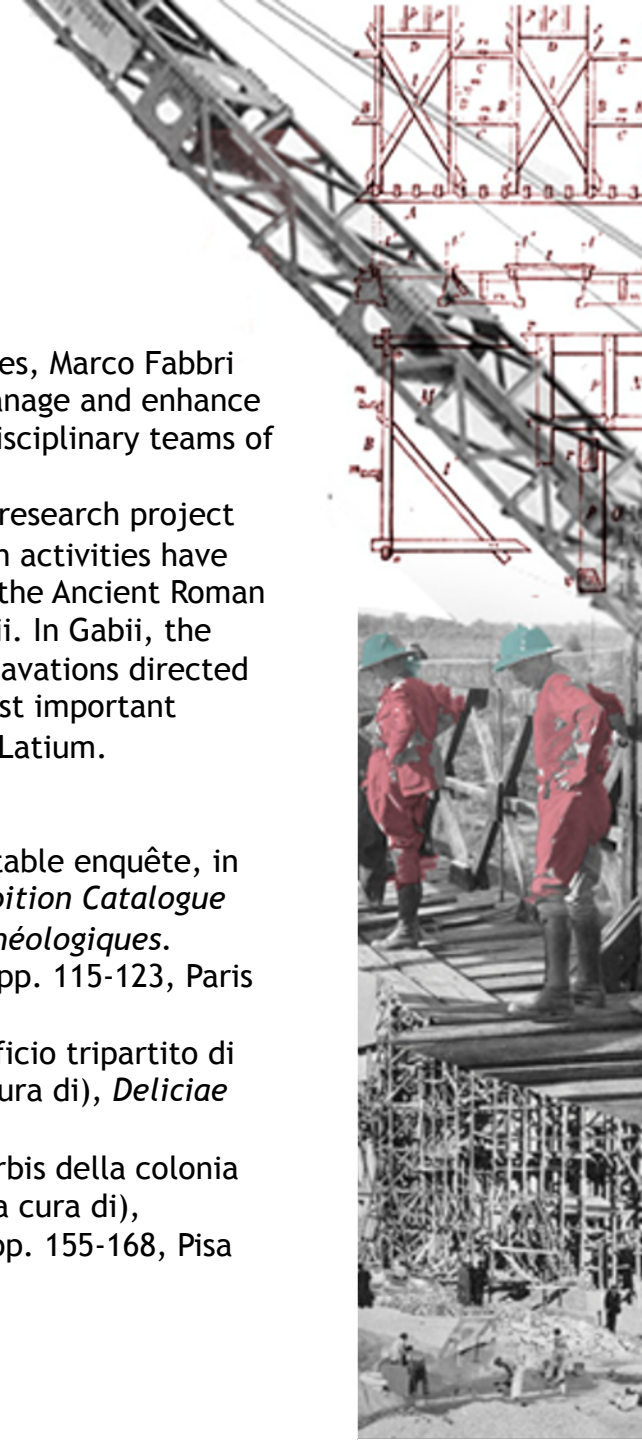

In recent years, along with the international research project based in Basilicata, Marco Fabbri's excavation activities have concentrated on the fortification systems of the Ancient Roman period, such as the ones of Rome and Pompeii. In Gabii, the ancient Latin town 20km from Rome, the excavations directed by Marco Fabbri have unveiled one of the most important building sites from the Archaic period of Old Latium.
